- Czech - Basic

#StandWithUkraine

Full-Stack Web Engineer

WORK EXPERIENCE

Full-Stack Engineer

Similarweb | Mar 2025 - present

- Maintaining and modernizing legacy codebase
- Working with a team to scale existing web applications
- Cross-browser extension development
- Front-end & Back-end development of web applications with large user base

Full-Stack Engineer

Luxonis | Nov 2022 - Feb 2025

- Working on a back-end of a cloud robotic-vision device management app
- Building complex and reusable front-end from zero to production
- Efficient video decoding and streaming over WebSocket and WebRTC
- Optimizing video stream rendering
- Developing internal applications using Python
- Setting up CI/CD for complete front-end deployment
- Building, deploying and publishing various TypeScript libraries from scratch
- Writing internal technical documentation

Back-end Developer

FreelanceHunt | Jan 2017 - Nov 2021

- Developing messenger business automation chat-bots
- Parsing web pages of a different complexity
- Integrating various services via APIs (incl. undocumented)
- Architecting and implementing databases (SQL, NoSQL)
- Localization, internationalization
- Automating document generation (HTML, PDF)

PUBLICATIONS

Feature-rich, fully local AI chat-bot

ReadyTensor | Feb 2025

- Fully independent, self-hosted AI assistant that runs entirely on local hardware, ensuring maximum privacy and eliminating reliance on external providers

EDUCATIONAL HISTORY

Czech Technical University

BA Software Engineer | Apr 2022 - 2024

Odessa Polytechnic State University

BA Software Engineer | Sept 2021 - 2025
